

Welcome to Tourhotel

Welcome to our family hotel **, we welcome you all year round in our forty-three rooms for one to six people with private bathroom on the occasion of your business trips, your family events, for a tourist stay, a sports competition, during a trip on foot or by bike, with breakfast or in the evening stage, individually or in group since we can accommodate a group up to ninety-six people, as well as vehicles thanks to our private parking.

A family hotel with a strong commitment

We like to do our job with conviviality and simplicity, turned towards the others but also towards our environment. We exchange with local actors and associations on subjects such as revalorization, reuse, mobility, zero waste.

We work in a family atmosphere since the creation of the establishment in 1990. Léa's great-grandparents were already hoteliers in Béthune in the station area. Today, with a team committed for many years, the family tradition continues at the Tourhotel.

Our garden is open to you

Come and have a coffee and stroll through the permaculture vegetable garden, we practice a reasoned mowing to preserve biodiversity and keep the coolness in summer.

You can discover the potatoes on the river side, the cultivation beds near the greenhouse, but also the bee zones in front; these spaces allow us to feed people and welcome small animals, as the seasons go by.

Our association AUTOUR allows us to offer training in permaculture, wild harvesting courses, zero waste cooking courses, and many other things.

You can consult the latest version of our room directory with the QR code on the front cover

Our team is available for all your questions and wishes you a pleasant stay at the Tourhotel and in Bethune.

Our commitments for today and tomorrow

At the Tourhotel, we welcome you to a place that we want to turn towards others and towards our common home.

We apply a H.O.Z.I.E (Hotel Objective Zero Environmental Impact) approach daily, integrating social and environmental criteria into our decision-making process.

We believe that the safeguard of the human species is the result of a life in harmony with our environment and that small actions of every day can have big impacts.

Our commitments are based on:

- A policy of good management of annual water consumption
- A policy of controlling our electrical energy consumption (KWH/year)
- The sorting of recyclable waste and the voluntary contribution of glass.
- Composting of organic waste on site (pilot site in the agglomeration).
- Increasing use of eco-certified cleaning products.
- Encouraging alternative mobility.
- Involvement of our suppliers in our environmental policy: reduction or even elimination of individual packaging, home-made products, short circuits.
- Raising the awareness of our customers.
- Upcycling instead of disposing decoration and furniture are renovated in partnership with the recycling shop "A la courte échelle".
- A place open to the city: Organization of zero waste workshop with Terretous Transition, purchase of Confitroc jams, relay point for Meloko baskets, purchase of stationery from the EAST Cousteau.
- The promotion and use of local or AB certified food products.

I, Léa BODIN, Director of the Tourhotel, am committed to ensure the permanent monitoring of our environmental impact and to exchange with all stakeholders around this project which is at the heart of the strategy of our company.
